

Add a new specialist to your team.

You will be glad you did.

Imagine having a dedicated person who makes sure every lab coat and patient gown is cleaned, pressed and ready for the day ahead. Turning that responsibility over to a healthcare laundry expert like Nixon makes all the sense in the world. Turning it over to the largest and fastest-growing textile rental company in the Northeast and mid-Atlantic makes the most sense for your bottom line.

We're the largest and fastest-growing textile rental company in the Northeast and mid-Atlantic.
